Good afternoon Bob.

DEQ reviewed the "Work Plan, Human Health and Ecological Risk Assessment, NW Natural Gasco Site" dated March 2012 (received March 22, 2012) as supplemented May 29, 2012 (Draft HERA Work Plan). A soft copy of the our comments letter is attached.

A signed hard copy of the letter will be sent to you via regular mail this week.

DEQ's comments are intended to clarify our understandings of agreements reached with NW Natural on the content of the work plan, supply additional details on data use and analysis, update the document to reflect developments that post-date its submittal, and request information items for inclusion in the HERA Report .

DEQ requests the Draft HERA Work Plan be revised consistent with our comments and resubmitted for review by March 29, 2013. DEQ suggests meeting in early March to discuss the comments letter and the revised work plan.

Please feel free to contact me with questions regarding this e-mail and/or the attachments.
